AURORA ECO

2/26nm 100% Royal Cashmere

AURORA ECO reflects the raw natural beauty of pure cashmere as it is found naturally in a collection of 6 undyed Cashmere shades blended from the 3 natural tones of a cashmere goats coat - creamy whites, warm greys and earthy browns.

The fibres retain all of their natural characteristics: purity of colour, super soft handle, durability, and breathability, with the added bonus of offering a pollutant free biodegradable option cradle to cradle.

Completely dye-free, and with only the essential processes of blending, carding and spinning applied, this is cashmere in it's most pure true form. The beautiful natural hues are a result of well cared for cashmere goats that graze on a healthy diet in rich mountainous pastures with plenty of sunshine and water.

TRACEABLE

The Consinee Group fully understands the importance of responsible cashmere production from farming to final product, implementing a strict monitoring and careful testing system for every step of the cashmere development process, giving reassurance to customers they are receiving the best quality and most ethical cashmere they can buy.

Aurora Eco forms part of our essential program for offering full traceability for our fibres to achieve more sustainable supply chains to reduce environmental impact. Undyed cashmere offers the ultimate solution for customers looking for truly organic sustainable luxury yarns that are both kind to your skin and to the planet.

带Ⓞ颜色选用动物纤维的天然颜色，未经染色处理，保持天然纤维的自然色调，每批之间存在自然色差。

Due to the natural tonal variations of undyed fibre used in this yarn marked with Ⓞ there will be some colour difference between each colour lot.

2/26nm 100% Royal Cashmere / 12gg 1end

Leaders in Luxury

CONSINEE was founded in 1999 to redefine the meaning of luxury yarns for fashion, placing cashmere at the heart of the collection.

Our continual investment in technologies and expertise for processing, dyeing and spinning, along with our creative colour and yarn innovations, has made CONSINEE a global market leader supplying over 20% of the worlds cashmere.

With a continually expanding collection of premium natural fibre yarns we offer a versatile and flexible fully stock supported range ready for immediate delivery.

Our pioneering vision created the worlds first fully automated unmanned AI cashmere spinning factory, increasing excellence and reducing waste.

CONSINEE is now a name that has become synonymous with luxury innovation, excellence and supreme sustainable quality.

TRUE COMMITMENT TO ENVIRONMENTAL PROTECTION AND ANIMAL WELFARE

Our partnership with suppliers and dedication to new manufacturing techniques has earned us a wide range of certifications to reassure you of our unrivalled quality control and belief in sustainable initiatives.

CONSINEE has always placed great importance and emphasis on being ethical and socially responsible, with a true commitment to environmental protection, animal welfare and sustainability. We believe in total transparency from the provenance of raw fibre to the complete production process and offering full traceability back to the farms for all our natural fibres.

Leaders in Luxury

The Good Cashmere Standard

We are proud to be awarded the Good Cashmere Standard. This certification stands for sustainably sourced cashmere from farms where goats are treated responsibly, the environment is protected, and the social, ecological, and economic living conditions of cashmere farmers and their families are respected.

The Good Cashmere Standard® is an initiative of the Aid by Trade Foundation with the aim of creating, promoting and implementing a benchmark standard for sustainable cashmere.

The Standard incorporates the Five Freedoms as defined by the Farm Animal Welfare Council. The Good Cashmere Standard follows three main principles: promote animal welfare in cashmere production, support cashmere farmers to secure a sustainable source of income and protect the environment.

The Sustainable Fibre Alliance (SFA)

The Sustainable Fibre Alliance (SFA) is a non-profit international organisation working with the extended cashmere supply chain, from herders to retailers. Their goal is to promote a global sustainability standard for cashmere production in order to preserve and restore grasslands, ensure animal welfare and secure livelihoods.

Responsible Wool Standard (RWS)

RWS certification ensures that the wool comes from farms with a progressive approach to managing their land and treat their sheep responsibly. The goals of the RWS are to provide a tool to recognise the best practices of farmers to ensure wool comes from farms that uphold the highest environmental, ethical and socially responsible standards.

We Like to Listen

Our customer commitment means we like to listen and react to your individual needs, please do not hesitate to contact us at:

AT CONSINEE WE USE ONLY THE VERY BEST PREMIUM NATURAL FIBRES IN OUR ALL OUR YARNS, WITH CASHMERE THE CORE OF OUR COLLECTION.

The luxurious beauty and exceptional warmth of Cashmere is unrivalled and immediately recognizable due to its' unique qualities of lustre, lightness, durability and softness creating a superior elegance for knitwear.

We value tradition and heritage very highly, working closely in partnership with experienced goat herders, whilst also embracing innovation using modern dyeing and manufacturing processes to create exceptional colours, effects and weights with all our yarns.

PURE LUXURIOUS CASHMERE

LUXURIOUS YARNS THAT
DON'T CAUSE UNNECESSARY
HARM TO THE PLANET

TRUE COMMITMENT TO SUSTAINABILITY

We have always placed great importance and emphasis on being ethical and socially responsible, with a true commitment to environmental protection, animal welfare and sustainability.

We believe in total transparency from the provenance of raw fibre through the whole production process, always meeting very strict eco guidelines.

As leaders in luxury yarns we have been pioneers in the development of organic cashmere as part of China's green and eco-friendly enterprise, which produces over 10,000 tons of yarn annually.

We are constantly looking for ways to improve our sourcing and methods of production to reduce our impact on the environment around us, ultimately creating a more sustainable future.

OUR COMMITMENT TO SUSTAINABILITY INCLUDES

- **SUSTAINABLE AND RECYCLABLE** - we produce 200 to 500 tons of high grade natural recycled yarns annually
- **ORGANIC AND TRACEABLE** - initiating special breeding programs in China to make organic and traceable cashmere possible
- **GREEN AND ECO-FRIENDLY** - pioneering new production processes to use green energy and implement energy recycling
- **ANIMAL PROTECTION** - conscientiously caring for animal welfare and the protection of grazing pastures.

ATTENTION:

The rewinding operation must be carried out with certain machines and particular attention; therefore we advise not to rewind, unless absolutely necessary.

CARE INSTRUCTIONS:

Hand Wash or Dry Clean

Do not bleach

Dry flat, do not tumble dry

Iron at a cool setting

RECOMMENDED FINISHING

A two bath method, using a designated detergent, will give the optimum handle. The first bath is designed to remove the spinning oil and residual dyestuffs and the second to mill the garments to the required handle.

The following recommendation is based on a rotary finishing machine. Water temperature: 40°C
Liquor ratio: 20:1 (20 Litres of water for every kilogram of garments)

Bath 1:

- 5-10% of non-ionic detergent based on weight of goods
- Run for 3 minutes
- Drain and rinse

Bath 2:

- 2-5% detergent, based on weight of goods
- Run for 3 minutes, depending on the handle required.
For a softer handle extend the time in this bath
- Drain and rinse
- 1.5% Softener maximum. Run for 10-15 minutes
- Standard tumble dry 70-80°C (60°C for light shades), until dry. Do not over dry
