ATLAS ECO调和了三种天然颜色——奶白，暖灰色和土棕色，形成了拥有12种自然色彩的羊绒纱线，完美保留了纱线的天然之美。

ATLAS ECO保留了羊绒纤维所有的自然特性:颜色纯净，手感柔软，耐用性和透气性，此外还满足绿色可持续理念。

为了展现羊绒纱线最奢华的本真，全生产过程无染色，仅仅只是基本的混纺、梳毛和纺纱流程。充沛的阳光和水资源，孕育了肥沃的山地牧场，也孕育了健康的绒山羊，成就了羊绒纱线的自然之美。

ATLAS ECO是我们生态系统的重要计划之一，为我们的纤维提供全面的可追溯性，以实现更可持续的供应链，减少对环境的影响。未染色羊绒为寻找真正有机可持续豪华纱线的客户提供了终极解决方案，既善待你的皮肤，又保护地球。

ATLAS ECO reflects the raw natural beauty of pure cashmere as it is found naturally in a collection of 12 undyed Cashmere shades blended from the 3 natural tones of a cashmere goats coat – creamy whites, warm greys and earthy browns.

The fibres retain all of their natural characteristics: purity of colour, super soft handle, durability, and breathability, with the added bonus of offering a pollutant free biodegradable option cradle to cradle.

Completely dye-free, and with only the essential processes of blending, carding and spinning applied, this is cashmere in it's most pure true form. The beautiful natural hues are a result of well cared for cashmere goats that graze on a healthy diet in rich mountainous pastures with plenty of sunshine and water.

Atlas Eco forms part of our essential program for offering full traceability for our fibres to achieve more sustainable supply chains to reduce environmental impact. Undyed cashmere offers the ultimate solution for customers looking for truly organic sustainable luxury yarns that are both kind to your skin and to the planet.

TRACEABLE

The Consinee Group fully understands the importance of responsible cashmere production from farming to final product, implementing a strict monitoring and careful testing system for every step of the cashmere development process, giving reassurance to customers they are receiving the best quality and most ethical cashmere they can buy.

康赛妮集团充分理解负责任羊绒产品的重要性，对羊绒开发过程的每一步都实施严格的监控和检测，让客户放心，康赛妮提供最高质量和最环保的羊绒。

FABRIC CARE

ATTENTION:

The rewinding operation must be carried out with certain machines and particular attention; therefore we advise not to rewind, unless absolutely necessary.

CARE INSTRUCTIONS:

  Hand Wash or Dry Clean

 Do not bleach

 Dry flat, do not tumble dry

 Iron at a cool setting

RECOMMENDED FINISHING:

A two bath method, using a designated detergent, will give the optimum handle. The first bath is designed to remove the spinning oil and residual dyestuffs and the second to mill the garments to the required handle.

The following recommendation is based on a rotary finishing machine.

Water temperature: 40°C

Liquor ratio: 20:1 (20 Litres of water for every kilogram of garments)

Bath 1:

- 5-10% of non-ionic detergent based on weight of goods
- Run for 3 minutes
- Drain and rinse

Bath 2:

- 2-5% detergent, based on weight of goods
- Run for 3 minutes, depending on the handle required.
For a softer handle extend the time in this bath
- Drain and rinse
- 1.5% Softener maximum. Run for 10-15 minutes
- Standard tumble dry 70-80°C (60°C for light shades), until dry.
Do not over dry
