NEW ENGLAND⁺

REFINE⁺

New England⁺ is our best selling woollen yarn, made from 100% RWS extrafine merino wool. The fibres are carefully dyed in our own dye house, and are skilfully blended to achieve a vibrancy and depth of colour which can only be created by fibre dye methods. Our expert technicians spin the fibres with care and finesse to create a yarn with exceptional qualities.

Refine⁺ is a 12 gauge version of our most popular yarn, with all the same qualities and characteristics of New England⁺.

New England Space Dyed⁺ is a fun and vibrant alternative to one of our most beloved classic yarns. The space dyed effect creates a unique colour patterning that will bring any knitwear item to life.

New England Air⁺ is a 3 gauge version in the 100% wool series and it is crafted with an innovative hollow-core spinning process. It is the perfect choice for creating cosy, warm and light alternatives for the coldest months of the year.

New England Donegal⁺ is a colourful tweed partner to New England⁺. Made from the same quality fibres, it offers a glorious vibrancy of colours with its beautiful peppered surface.

New England Twill⁺ twists ends of our premium RWS extrafine merino wool yarn into a multi colour medley for a sophisticated tweed look. We have designed twenty four rich colour combinations that you can choose from, or you can let your creativity run free with our digital sampling service. With UPW® Creativity On Demand we can speedily twist your colour combinations for rapid prototyping.

NEW ENGLAND⁺ / REFINED⁺
